NOTES TO FINANCIAL STATEMENTS

1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

A. Accounting Practices

The financial statements of the Company are presented on the basis of accounting practices prescribed or permitted by the Iowa Department of Commerce, Insurance Division (the “Insurance Division”).

The Insurance Division recognizes only statutory accounting practices prescribed or permitted by the State of Iowa for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under Iowa Insurance Law. The National Association of Insurance Commissioners’ (“NAIC”) *Accounting Practices and Procedures Manual* (“NAIC SAP”) has been adopted as a component of prescribed or permitted practices by the Insurance Division. The Company differs from NAIC SAP under Iowa Administrative Code 191 - Chapter 97, *Accounting for Certain Derivative Instruments Used to Hedge the Growth in Interest Credited for Indexed Insurance Products and Accounting for the Indexed Insurance Products Reserve* (“IAC 191-97”), a prescribed practice issued by the Insurance Division. Under this prescribed practice, call option derivative instruments that hedge the growth in interest credited on index products are accounted for at amortized cost with the corresponding amortization recorded as a decrease to net investment income and indexed annuity reserves are calculated based on Standard Valuation Law and Guideline 35 assuming the market value of the call options associated with the current index term is zero regardless of the observable market value for such options.

The Company also has a prescribed practice under Iowa Administrative Code 191 - Chapter 43 “*Annuity Mortality Tables For Use In Determining Reserve Liabilities for Annuities*” (“IAC 191-43”) which allows the use of the Annuity 2000 Mortality Table for determining the minimum standard of valuation for annuities issued during 2015. The Company began using the 2012 IAR Mortality Table for annuities issued on or after January 1, 2016. NAIC SAP requires the use of the 2012 IAR Mortality Table for determining the minimum standard of valuation for annuities issued on or after January 1, 2015.

A reconciliation of the Company’s net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the Insurance Division is shown below:

NOTES TO FINANCIAL STATEMENTS

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make certain estimates that affect the reported assets and liabilities, including reporting or disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Future events, including changes in interest rates and asset valuations, could cause actual results to differ in the near term from the estimates used in the financial statements.

The most significant estimates include those used in determining policy reserves, impairment losses on investments and federal income taxes. Although some variability is inherent in these estimates, the recorded amounts reflect management's best estimates based on facts and circumstances as of the date of the financial statements. Management believes the amounts provided are appropriate.

C. Accounting Policy

The company uses the following accounting policies:

1. The Company considers all highly liquid debt instruments purchased with a maturity of twelve months or less to be short-term investments and are stated at amortized cost.
2. Investments in bonds rated NAIC 1-5 (including loan-backed securities), are reported at cost adjusted for amortization of premiums or discounts. Bonds with NAIC 6 ratings are reported at the lower of amortized cost or fair value. Amortization is computed using methods which result in a level yield over the life of the security. The Company reviews its prepayment assumptions on mortgage and other asset-backed securities at regular intervals and adjusts amortization rates retrospectively when such assumptions are changed due to experience and/or expected future patterns.

Realized capital gains and losses are recorded on the trade date and determined on the basis of specific identification and are recorded net of related federal income taxes and amounts transferred to the Interest Maintenance Reserve ("IMR"). Under a formula prescribed by the NAIC, the Company defers, in the IMR, the portion of realized gains and losses on sales of fixed income investments, principally bonds, attributable to changes in the general level of interest rates and amortizes those deferrals over the remaining period to maturity of the security. The Asset Valuation Reserve ("AVR") is established by the Company to provide for anticipated losses in the event of default by issuers of certain invested assets. The AVR is determined using a formula that is intended to establish a reserve to offset potential credit-related investment losses.

The carrying values of all investments are reviewed on an ongoing basis for credit deterioration. An other than temporary impairment shall be considered to have occurred if it is probable that the reporting entity will be unable to collect all amounts due according to the contractual terms of a debt security in effect at the date of acquisition. If this review indicates a decline in fair value that is other than temporary, the carrying amount of the investment, other than loan-backed and structured securities, is reduced to its fair value and a specific other than temporary impairment is taken. A decline in fair value which is other than temporary includes situations where the Company has made a decision to sell a security prior to its maturity at an amount below its carrying value. Such reductions in carrying values are recognized as realized losses on investments.

3. Common stocks are stated at fair value based on the latest quoted market prices.
4. Preferred stocks are stated primarily at cost adjusted for amortization of premiums and accrual of discounts and for other than temporary decline in the fair value of the preferred stock. An exception is preferred stocks with an NAIC designation of RP4 to RP6 and P4 to P6, which are reported at the lower of amortized cost or fair value.
5. Investments in mortgage loans on real estate are reported at cost adjusted for amortization of premiums and accrual of discounts. Amortization is computed using methods which result in a level yield over the life of the loan. Mortgage loans are stated at the aggregate unpaid principal balance net of loan loss allowance.
6. If the fair value of a loan-backed or structured security is less than its amortized cost at the reporting date, the Company assesses whether the impairment is other than temporary. If the Company intends to sell the loan-backed or structured security, an other than temporary impairment is considered to have occurred and a loss is recognized through earnings in an amount equal to the excess of amortized cost over fair value at the reporting date.

If the Company does not intend to sell the loan-backed or structured security, the Company assesses whether it has the intent and ability to retain the investment in the security for a period of time sufficient to recover the amortized cost. If the Company does not have the intent and ability to retain the investment for the time sufficient to recover the amortized cost, an other than temporary impairment is considered to have occurred and a loss is recognized through earnings in an amount equal to the excess of amortized cost over fair value at the reporting date.

If the Company does not expect to recover the amortized cost basis of the security, it is unable to assert that it will recover its amortized cost even if it does not intend to sell the security and the entity has the intent and ability hold such security. Therefore, in those situations, an other than temporary impairment is considered to have occurred and a loss is recognized in an amount equal to the excess of amortized cost over the present

NOTES TO FINANCIAL STATEMENTS

value of cash flows expected to be collected, discounted at the loan-backed or structured security's effective interest rate.

Interest income is recognized on an accrual basis. Dividend income is recognized when declared. The Company does not accrue income on bonds in default which are delinquent more than twelve months. Further, income is not accrued when collection is uncertain.

7. The Company accounts for investments in subsidiaries, controlled and affiliated ("SCA") entities using the audited statutory equity of the investee if the entity is an insurance company. All non-insurance entities are valued at the audited U.S. GAAP equity of the investee.
8. The Company has ownership interests in joint ventures, partnerships, and limited liability companies. The Company carries these interests based on the underlying audited U.S. GAAP equity of the investee.
9. The Company has fixed index annuity products that guarantee the return of principal to the policyholder and credit interest based on a percentage of the gain in a specified market index. When fixed index annuity premiums are received, a portion of the premium is used to purchase derivatives consisting of call options on the applicable market indices to fund the index credits due to fixed index annuity policyholders. All such call options are purchased to match the funding requirements of the underlying policies. On the respective anniversary dates of the fixed index policies, the index used to compute the annual index credit is reset and the Company purchases new call options to fund the next annual index credit. The Company manages the cost of these purchases through the terms of its fixed index annuities, which permit the Company to change annual participation rates, caps and/or asset fees, subject to guaranteed minimums. By adjusting participation rates, caps or asset fees, the Company can generally manage options costs except in cases where the contractual features would prevent further modifications.

The Company's hedging strategy attempts to mitigate any potential risk of loss under these agreements through a regular monitoring process which evaluates the program's effectiveness. The Company purchases call options to fund the next annual index credit on fixed index annuities from national recognized investment banking institutions. The Company is exposed to risk of loss in the event of nonperformance by the counterparties and, accordingly, it purchases its option contracts from multiple counterparties and evaluates the creditworthiness of all counterparties prior to purchase of the contracts. All of these options purchased by the Company have been purchased from nationally recognized financial institutions with a Standard and Poor's credit rating of A - or higher at the time of purchase. The Company also has credit support agreements that allow it to request the counterparty to provide collateral to it when the fair value of the exposure to the counterparty exceeds specified amounts (See Note 16 for more information).

The Company follows IAC 191-97, a prescribed practice issued by the Insurance Division. Under this prescribed practice, call option derivative instruments that hedge the growth in interest credited on fixed index products are accounted for at amortized cost with the corresponding amortization recorded as a decrease to net investment income.

10. The Company does not anticipate investment income as a factor in the premium deficiency calculation.
11. The Company utilizes actuarial tables and incurred but not reported data to estimate the liabilities for losses and loss/claim adjustment expense for accident and health contracts.
12. No material changes were made to the capitalization policy during 2020.
13. The Company did not have any pharmaceutical rebate receivables as of December 31, 2020.

D. Going Concern

The Company's management has evaluated its ability to continue as a going concern and does not have any substantial doubt the entity will continue as a going concern.

2 - ACCOUNTING CHANGES AND CORRECTIONS OF ERRORS:

The Company had no material changes in accounting principles or correction of errors to report for the year ended December 31, 2020.

3 - BUSINESS COMBINATIONS AND GOODWILL:

Total OTTI recognized under SSAP 43R for the twelve months ended December 31, 2020: \$12,865,474

4. For loan-backed and structured securities with unrealized losses as of December 31, 2020, the gross unrealized losses and fair value, aggregated by length of time that individual securities have been in a continuous unrealized loss position are summarized as follows:

a. Aggregate amount of unrealized loss:	
Less than 12 months	\$ 95,256,732
12 months or longer	\$ 139,918,818
b. Aggregate related fair value of securities with unrealized losses:	
Less than 12 months	\$ 2,111,416,891
12 months or longer	\$ 2,540,677,236

5. The process for evaluating loan-backed and structured securities is based on a number of factors. The primary consideration in the evaluation process is the issuer’s ability to meet current and future interest and principal payments as contractually stated at the time of purchase. The review of these securities includes an analysis of the cash flow modeling under various default scenarios considering independent third party benchmarks, the seniority of the specific tranche within the structure of the security, the composition of the collateral and the actual default, loss severity and prepayment experience exhibited. With the input of third party assumptions for default

NOTES TO FINANCIAL STATEMENTS

projections, loss severity and prepayment expectations, the Company evaluates the cash flow projections to determine whether the security is performing in accordance with its contractual obligations.

At December 31, 2020 the Company had no exposure to subprime loan-backed securities. Substantially all of the owned securities are in the highest rated tranche of the pool in which they are structured and are not subordinated to any other tranche.

E. Dollar Repurchase Agreements and/or Securities Lending Transactions

1. Securities Lending - The Company participates in a securities lending program whereby it loans certain securities to approved borrowers. Securities are lent to borrowers, through a lending agent, on an overnight or, with the Company's prior approval, a term basis. Borrowers post cash collateral in an amount equal to or greater than 102% of the security's market value which is invested by the lending agent in money market funds or repurchase agreements meeting investment guidelines approved by it. The Company retains control of all loaned securities and receives all principal and interest payments that would normally be paid to the Company if it did not lend the securities. The fair value of the loaned securities is monitored on a daily basis with additional collateral obtained or refunded as the fair value of the loaned securities fluctuates.
2. The Company has not pledged any of its assets as collateral that are not reclassified and separately reported in the statement of financial position.
3. Collateral Received

a. The aggregate amount of collateral received as of December 31, 2020 is as follows:

	Fair Value	
Securities Lending		
a. Open	\$	61,600
b. 30 days or less		—
c. 31 to 60 days		—
d. 61 to 90 days		—
e. Greater than 90 days		—
f. Sub-Total	\$	61,600
g. Securities Received		—
h. Total Collateral Received	\$	61,600

- b. The fair value of that collateral and of the portion of that collateral that it has sold or replighted: \$61,600.
- c. The Company uses cash collateral received for income generation. At the end of the loan term, the Company will take back its securities, and the counterparty will receive the amount loaned, together with the agreed upon interest.
4. There are no securities lending transactions administered by an affiliated agent.

NOTES TO FINANCIAL STATEMENTS

5. Collateral Reinvestment

a. The aggregate amount of collateral reinvested as of December 31, 2020 is as follows:

	Amortized Cost	Fair Value

k. Sub-Total	\$ 61,600	\$ 61,600
l. Securities received	—	—
m. Total collateral reinvested	\$ 61,600	\$ 61,600

b. The maturity dates of the liabilities appropriately match the invested assets in the securities lending program.

6. The Company participates in a securities lending program whereby it loans certain securities to approved borrowers. Securities are lent to borrowers, through a lending agent, on an overnight or, with the Company's prior approval, a term basis. Borrowers post cash collateral in an amount equal to or greater than 102% of the security's market value which is invested by the lending agent in money market funds or repurchase agreements meeting investment guidelines approved by it. The Company retains control of all loaned securities and receives all principal and interest payments that would normally be paid to the Company if it did not lend the securities.

The Company's securities lending program exposes it to certain counterparty and spread risks. Counterparty risk is mitigated by over-collateralization requirements, daily mark to market, and indemnification by the lending agent for shortfalls in collateral in event of borrower default. The lending agent monitors spread risk to ensure that the interest rate paid by us to borrowers does not exceed the rate of return on cash collateral investments. The Company regularly monitors the overall securities lending program, including the lending agent, borrowers, and the appropriateness of cash collateral investments.

7. The Company does not have any collateral for transactions that extend beyond one year from December 31, 2020.

NOTES TO FINANCIAL STATEMENTS

F. Repurchase Agreements Transactions Accounted for as Secured Borrowing

1. As part of its investment strategy, the Company enters into securities repurchase agreements (short-term collateralized borrowings). When the Company borrows cash on these repurchase agreements, it pledges collateral in the form of debt securities with fair values approximately equal to the amount due. The Company uses the cash to purchase debt securities ahead of the time the cash is collected from selling annuity policies to avoid a lag between the investment of funds and the obligations to credit interest to policyholders. The Company earns investment income on the securities purchased with these borrowings at a rate in excess of the cost of these borrowings.

- A. The Company did not have any investments in joint ventures, partnerships, or limited liability companies that exceed 10% of its admitted assets as of December 31, 2020.
- B. During the twelve months ended December 31, 2020 the Company recognized an impairment of \$4,093,258 on an investment in a limited liability partnership due to continued deterioration in the Fund’s fair value and operating performance.

7 - INVESTMENT INCOME:

- A. Interest income is recognized on an accrual basis. Due and accrued income was excluded from surplus on the following bases:

The Company does not accrue income on bonds in default which are delinquent more than twelve months. Further, income is not accrued when collection is uncertain. Accrued investment income on bonds that are over 90 days past due is nonadmitted.
- B. At December 31, 2020, no amounts were excluded from investment income due and accrued.

8 - DERIVATIVE INSTRUMENTS:

The Company uses call options to pay the benefit provided for in the Company's indexed annuity insurance products. The financial characteristics of the call options purchased by the Company generally provide for the Company to be paid the one-year appreciation of various published indices. The term of the call options is generally one year. The Company pays cash to the counterparty based upon an agreed to price at the outset of the contract. The counterparty usually pays a single payment at each due date.

The Company is exposed to risk of loss in the event of nonperformance by the counterparties and, accordingly, the Company purchases its option contracts from multiple counterparties and evaluates the creditworthiness of all counterparties prior to purchase of the contracts. All options had been purchased from nationally recognized investment banking institutions (See Note 16 of our annual statement for more information).

In accordance with IAC 191-97, call option derivative instruments that hedge the growth in interest credited on index products are accounted for at amortized cost with the corresponding amortization recorded as a decrease to net investment income.

For the years ended December 31, 2020 and 2019, proceeds received upon expiration of options and amortization of options included as components of net investment income were as follows:

	2020	2019
Proceeds received upon expiration	\$ 801,008,242	\$ 645,024,922

N. Investment in Insurance SCAs

- (1) One of the Company's SCAs has accounting practices that differ from the NAIC accounting practices and procedures. In accordance with practices permitted by the State of Iowa, the SCA accounts for call option derivative instruments that hedge the growth in interest credited on index products at amortized cost and utilizes the Annuity 2000 Mortality Table for determining the valuation for annuities issued before January 1, 2016.
- (2) The monetary effect on net income and surplus as a result of using an accounting practice that differed from NAIC SAP, the amount of the investment in the insurance SCAs per audited statutory equity and the amount of the investment if the insurance SCAs had completed statutory financial statements in accordance with the NAIC's *Accounting Practices and Procedures Manual* ("AP&P Manual") were as follows as of December 31, 2020.

SCA entity (Investments in insurance SCA entities)	Monetary effect on NAIC SAP		Amount of investment	
	Net income increase (decrease)	Surplus increase (decrease)	Per Statutory equity	If the insurance SCA had completed Statutory financial statements*
Eagle Life Insurance Company	\$ (23,322,796)	\$ 11,519,443	\$ 247,144,844	\$ 258,664,287

*Per AP&P Manual (without permitted or prescribed practices)

(3) If the SCA had not been permitted to include these practices, the SCA's risk-based capital would not have triggered a regulatory event.

O. The Company did not have any SCA losses as of December 31, 2020.

11 - DEBT:

- A. The Company has no debentures outstanding or any reverse repurchase agreements.
- B. The Company does not have any FHLB agreements for the twelve months ended December 31, 2020.

NOTES TO FINANCIAL STATEMENTS

12 - RETIREMENT PLANS, DEFERRED COMPENSATION, POSTEMPLOYMENT BENEFITS AND COMPENSATED ABSENCES AND OTHER POSTRETIREMENT BENEFIT PLANS:

The company did not have a Defined Benefit Plan as of December 31, 2020.

B. Description of Investment Policies and Strategies

None

C. Fair Value of Plan Assets

None

D. Rate of Return Assumptions

None

E. Defined Contribution Plans

The Company did not have a Defined Contribution Plan as of December 31, 2020.

F. Multiemployer Plans

The Company did not have Multiemployer Plans as of December 31, 2020.

G. Consolidated/Holding Company Plans

The Company participates in the American Equity Investment Profit Sharing and 401(k) Plan (the "Plan"), which is sponsored by the Holding Company and is a defined contribution plan which is qualified under Section 401(k) of the Internal Revenue Service Code. The plan covers substantially all full-time employees of the Company, subject to minimum eligibility requirements. Employees can contribute a percentage of their annual salary up to a maximum contribution of \$19,500 and \$19,000 in 2020 and 2019, respectively. The Company contributes an additional amount, subject to limitations, based on the voluntary contribution of the employee. Further, the plan provides for additional employer contributions based on the discretion of the Board of Directors. Plan contributions charged to expense were \$1,760,641 and \$1,283,501 for the years ended December 31, 2020 and 2019, respectively.

The Company participates in the American Equity Investment Employee Stock Ownership Plan ("ESOP") established July 1, 2007 and sponsored by the Holding Company. The principal purpose of the ESOP is to provide each eligible employee with an equity interest in the Holding Company. Employees become eligible once they have completed a minimum of six months of service. Employees become 100% vested after two years of service. For the years ended December 31, 2020 and 2019, the Company recognized compensation expense of \$2,287,663 and \$1,999,350, respectively, related to the ESOP plan.

The Company has deferred compensation agreements with certain former officers whereby these individuals made compensation which is deposited into the American Equity Officer Rabbi Trust ("Officer Rabbi Trust"). The assets of the Officer Rabbi Trust are included in the assets of the Company and a corresponding deferred compensation liability is recorded. The deferred compensation liability is recorded at the fair market value of the assets in the Officer Rabbi Trust with the change in fair value included as a component of compensation expense. The deferred compensation liability related to these agreements was \$818,420 and \$1,304,834 at December 31, 2020 and 2019, respectively. At December 31, 2020, the assets of the Officer Rabbi Trust included investments in common stock of the Company's parent, the Holding Company, with a cost of \$264,395 and fair market value of \$765,103. At December 31, 2019, the assets of the Officer Rabbi Trust included investments in common stock of the Company's parent, the Holding Company, with a cost of \$288,152 and fair market value of \$913,823. In accordance with SSAP No. 97 *Investments in Subsidiary, Controlled, and Affiliated Entities, A Replacement of SSAP No. 88* ("SSAP 97"), this investment is treated as reciprocal ownership and the value of the common stock is reduced to zero through additional paid in capital.

During 2014, the Company established the 2014 Independent Insurance Agent Restricted Stock and Restricted Stock Unit Plan, which was amended during 2016. Under the amended plan, agents of the Company may receive grants of restricted stock and restricted stock units based upon their individual sales. The plan authorizes grants of up to 1,800,000 shares of our common stock. We recognize commission expense and an increase to contributed surplus as share-based compensation equal to the fair value of the restricted stock and restricted stock units as they are earned.

In January 2017, the Company's agents were granted 363,624 restricted stock units based on their production during 2016. In January 2020, agents vested in 58,617 restricted stock units granted in January 2017 based on their continued service as an independent agent and their 2019 individual sales of the Company's products and for which we recorded commission expense of \$1.4 million in 2019. In January 2021, agents vested in 41,735 restricted stock units granted in January 2017 based on their continued service as an independent agent and their 2020 individual sales of our products, and for which we recorded commission expense of \$0.9 million in 2020.

NOTES TO FINANCIAL STATEMENTS

In January 2016, agents were granted 650,683 restricted stock units based on their production during 2015. In January 2020, agents vested in 89,382 restricted stock units granted in January 2016 based on their continued service as an independent agent and their 2019 individual sales of the Company's products and for which we recorded commission expense of \$2.2 million in 2019. In January 2021, agents vested in 4,042 restricted stock units granted in January 2016 based on their continued service as an independent agent and their 2020 individual sales of our products, and for which we recorded commission expense of \$0.1 million in 2020. 20% of the restricted stock units vested one year from the grant date if the agent was in good standing at that date. The remaining 80% of the restricted stock units granted to retirement eligible individuals will vest over a three year period if the agent remains in good standing. The remaining 80% of the restricted stock units granted to non-retirement eligible individuals vest based on the agent's individual sales and continued service as an independent agent over a period of time not to exceed five years.

In January 2015, agents were granted 27,985 shares of restricted stock and 221,489 restricted stock units based on their production in 2014. In January 2020, agents vested in 2,943 restricted stock units granted in January 2015 based on their continued service as an independent agent and their 2019 individual sales of the Company's products, and for which commission expense of \$0.1 million was recorded in 2019. The restricted stock was granted to retirement eligible individuals and vested immediately upon grant. 20% of the restricted stock units vested one year from the grant date if the agent was in good standing at that date. The remaining 80% of the restricted stock units granted vest based on the agent's individual sales and continued service as an independent agent over a period of time not to exceed five years.

NOTES TO FINANCIAL STATEMENTS

F. All Other Contingencies

The Company is occasionally involved in litigation, both as a defendant and as a plaintiff. In addition, state regulatory bodies, such as state insurance departments, the Securities and Exchange Commission, the Department of Labor, and other regulatory bodies regularly make inquiries and conduct examinations or investigations concerning its compliance with, among other things, insurance laws, securities laws and the Employee Retirement Income Security Act of 1974, as amended.

In accordance with applicable accounting guidelines, the Company will establish an accrued liability for litigation and regulatory matters when those matters present loss contingencies that are both probable and estimable. As a litigation or regulatory matter is developing, the Company, in conjunction with outside counsel, evaluates on an ongoing basis whether the matter presents a loss contingency that meets conditions indicating the need for accrual and/or disclosure, and if not the matter will continue to be monitored for further developments. If and when the loss contingency related to litigation or regulatory matters is deemed to be both probable and estimable, the Company will establish an accrued liability with respect to that matter and will continue to monitor the matter for further developments that may affect the amount of the accrued liability.

The Company has an accrued liability of \$1.9 million and \$0.9 million at December 31, 2020 and 2019, respectively, related to a product regulatory matter with a state insurance department. A portion of the matter was settled during 2019 and \$30.2 million of the accrued liability was released which was substantially offset by an increase in aggregate reserves for life contracts.

There can be no assurance that any pending or future litigation will not have a material adverse effect on its business, financial condition, or results of operations.

Total assets at fair value	\$ 3,762,329	\$ 13,492,433	\$ —	\$ 17,254,762

(2) Fair Value Measurements in (level 3) of the Fair Value Hierarchy

None.

(3) Policy on Transfers Into and Out of Level 3

Transfers of securities among the levels occur at times and depend on the type of inputs used to determine fair value of each security. There were no transfers between levels during any period presented.

(4) Inputs and Techniques Used for Level 2 and Level 3 Fair Values

Fair value is the price that would be received to sell an asset or paid to transfer a liability (exit price) in an orderly transaction between market participants at the measurement date. The objective of a fair value measurement is to determine that price for each financial instrument at each measurement date. The Company met this objective using various methods of valuation that include market, income and cost approaches.

NOTES TO FINANCIAL STATEMENTS

The Company categorizes its financial instruments into three levels of fair value hierarchy based on the priority of inputs used in determining fair value. The hierarchy defines the highest priority inputs (Level 1) as quoted prices in active markets for identical assets or liabilities. The lowest priority inputs (Level 3) are the Company's assumptions about what a market participant would use in determining fair value such as estimated future cash flows. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, a financial instrument's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the financial instrument. The Company categorizes its financial assets and liabilities recorded at fair value in the consolidated balance sheets as follows:

Level 1 - Quoted prices are available in active markets for identical financial instruments as of the reporting date. The Company does not adjust the quoted price for these financial instruments, even in situations where it holds a large position and a sale could reasonably impact the quoted price.

Level 2 - Quoted prices in active markets for similar financial instruments, quoted prices for identical or similar financial instruments in markets that are not active; and models and other valuation methodologies using inputs other than quoted prices that are observable.

Level 3 - Models and other valuation methodologies using significant inputs that are unobservable for financial instruments and include situations where there is little, if any, market activity for the financial instrument. The inputs into the determination of fair value require significant management judgment or estimation. Financial instruments that are included in Level 3 are securities for which no market activity or data exists and for which the Company used discounted expected future cash flows with its own assumptions about what a market participant would use in determining fair value.

(5) Derivative Fair Values

None.

B. Other Fair Value Disclosures

None

C. Fair Values for All Financial Instruments by the Fair Value Hierarchy

The following table represents the fair values and admitted values of all admitted assets and liabilities that are financial instruments. The fair values are also categorized into the three-level fair value hierarchy.

The following methods and assumptions were used by the Company in estimating the fair values of financial instruments.

Bonds: The fair values of fixed maturity securities in an active and orderly market are determined by utilizing independent pricing services. The independent pricing services incorporate a variety of observable market data in their valuation techniques, including:

- reported trading prices,

NOTES TO FINANCIAL STATEMENTS

- benchmark yields,
- broker-dealer quotes,
- benchmark securities,
- bids and offers,
- credit ratings,
- relative credit information, and
- other reference data.

The independent pricing services also take into account perceived market movements and sector news, as well as a security's terms and conditions, including any features specific to that issue that may influence risk and marketability. Depending on the security, the priority of the use of observable market inputs may change as some observable market inputs may not be relevant or additional inputs may be necessary.

The independent pricing services provide quoted market prices when available. Quoted prices are not always available due to market inactivity. When quoted market prices are not available, the third parties use yield data and other factors relating to instruments or securities with similar characteristics to determine fair value for securities that are not actively traded. The Company generally obtains one value from our primary external pricing service. In situations where a price is not available from this service, the Company may obtain quotes or prices from additional parties as needed. Market indices of similar rated asset class spreads are considered for valuations and broker indications of similar securities are compared. Inputs used by the broker include market information, such as yield data and other factors relating to instruments or securities with similar characteristics. Valuations and quotes obtained from third party commercial pricing services are non-binding and do not represent quotes on which one may execute the disposition of the assets.

The Company validates external valuations at least quarterly through a combination of procedures that include the evaluation of methodologies used by the pricing services, comparison of the prices to a secondary pricing source, analytical reviews and performance analysis of the prices against trends, and maintenance of a securities watch list. Additionally, as needed, the Company utilizes discounted cash flow models or performs independent valuations on a case-by-case basis using inputs and assumptions similar to those used by pricing services. Although the Company does identify differences from time to time as a result of these validation procedures, no significant adjustments were made as of December 31, 2020 and 2019.

Preferred and common stock: The fair values of preferred and unaffiliated common stocks are based on quoted market prices.

Mortgage loans on real estate: The fair values of mortgage loans on real estate are calculated using discounted expected cash flows using current competitive market interest rates currently being offered for similar loans. The fair values of impaired mortgage loans on real estate that the Company has considered to be collateral dependent are based on the fair value of the real estate collateral (based on appraised values) less estimated costs to sell. The inputs utilized to determine fair value of all mortgage loans are unobservable market data (competitive market interest rates); therefore, fair value of mortgage loans falls into Level 3 in the fair value hierarchy.

Derivatives: The fair values of derivative instruments, primarily call options, are based upon the amount of cash that the Company will receive to settle each derivative instrument on the reporting date. These amounts are determined by our investment team using industry accepted valuation models. Inputs include market volatility and risk free interest rates and are used in income valuation techniques in arriving at a fair value for each option contract. The Company has no performance obligations related to the call options purchased to fund our fixed index annuity policy liabilities.

Policy loans: The Company has not attempted to determine the fair values associated with its policy loans as management believes any differences between the Company's carrying value and the fair values afforded these instruments are immaterial to the Company's financial position and, accordingly, the cost to provide such disclosure is not worth the benefit to be derived.

Other invested assets: Financial instruments included in other investments that are not measured at fair value on a recurring basis are equity method investments. The fair values of our equity method investments are obtained from third parties and determined by calculating the present value of future cash flows discounted by a risk free rate, a risk spread, and a liquidity discount. As the risk spread and liquidity discount are unobservable market inputs, the fair value of our equity method investments falls within Level 3 of the fair value hierarchy.

Cash, cash equivalents and short-term investments: Amounts reported in the statutory-basis balance sheets for these instruments are reported at their historical cost which approximates fair value due to the nature of the assets assigned to this category.

Policy benefit reserves: The fair values of the liabilities under contracts are stated at the cost the Company would incur to extinguish the liability (i.e., the cash surrender value). For period-certain annuity benefit contracts, the fair value is determined by discounting the benefits at the interest rates currently in effect for newly issued immediate annuity contracts.

NOTES TO FINANCIAL STATEMENTS

- D. The Company has not attempted to determine the fair values associated with policy loans, as the Company believes any differences between carrying values and fair values are immaterial to the Company's financial position and, accordingly, the cost to provide such disclosure does not justify the benefit to be derived. As a result, the Company also has not determined an effective interest rate or maturity date.

23 - REINSURANCE:

A. Ceded Insurance Report

Section 1 - General Interrogatories

1. Are any of the reinsurers, listed in Schedule S as non-affiliated, owned in excess of 10% or controlled, either directly or indirectly, by the company or by any representative, officer, trustee, or director of the company?

Yes () No (X)

2. Have any policies issued by the Company been reinsured with a company chartered in a country other than the United States (excluding U.S. Branches of such companies) that is owned in excess of 10% or controlled directly or indirectly by an insured, a beneficiary, a creditor or any other person not primarily engaged in the insurance business?

Yes () No (X)

Section 2 - Ceded Reinsurance Report - Part A

1. Does the Company have any reinsurance agreements in effect under which the reinsurer may unilaterally cancel any reinsurance for reasons other than for nonpayment of premium or other similar credits?

Yes () No (X)

- a. If yes, what is the estimated amount of aggregate reduction in surplus of a unilateral cancellation by the reinsurer as of the date of this statement, for those agreements in which cancellation results in a net obligation of the reporting entity to the reinsurer, and for which such obligation is not presently accrued? Where necessary, the reporting entity may consider the current or anticipated experience of the business reinsured in making this estimate. \$ _____

- b. What is the total amount of reinsurance credits taken, whether as an asset or as a reduction of liability, for these agreements in this statement? \$ _____

2. Does the reporting entity have any reinsurance agreements in effect such that the amount of losses paid or accrued through the statement date may result in a payment to the reinsurer of amounts that, in aggregate and allowing for offset of mutual credits from other reinsurance agreements with the same reinsurer, exceed the total direct premium collected under the reinsured policies?

Yes () No (X)

Section 3 - Ceded Reinsurance Report - Part B

1. What is the estimated amount of the aggregate reduction in surplus, (for agreements other than those under which the reinsurer may unilaterally cancel for reasons other than for nonpayment of premium or other similar credits that are reflected in Section 2 above) of termination of ALL reinsurance agreements, by either party, as of the date of this statement? Where necessary, the Company may consider the current or anticipated experience of the business reinsured in making their estimate. \$1,398,948,292

2. Have any new agreements been executed or existing agreements amended, since January 1 of the year of this statement, to include policies or contracts in force or which had existing reserves established by the Company as of the effective date of the agreement?

Yes () No (X)

If yes, what is the amount of reinsurance credits, whether as asset or reduction of liability, taken for such new agreements or amendments?

NOTES TO FINANCIAL STATEMENTS

The Company has entered into two coinsurance agreements with EquiTrust Life Insurance Company (“EquiTrust”), covering 70% of certain of the Company’s fixed rate and index annuities issued from August 1, 2001 through December 31, 2001, 40% of those contracts issued during 2002 and 2003 and 20% of those contracts issued from January 1, 2004 to July 31, 2004, when the agreement was suspended by mutual consent of the parties. As a result of the suspension, new business will no longer be ceded to EquiTrust unless the parties mutually agree to resume the coinsurance of new business. These reinsurance transactions are summarized as follows:

Income Statement	December 31, 2020	December 31, 2019
Annuity Considerations	\$ 1,753,253	\$ 1,548,339
Commission and Expense Allowance	458,816	529,676
Benefits and Surrenders Ceded	75,532,220	93,345,148
Balance Sheet		
Reserve Credit	\$ 408,533,058	466,232,923

Effective July 1, 2013, the Company entered into an YRT reinsurance agreement (“2013 Agreement”) with Hannover covering inforce and new business net of any existing reinsurance agreements. Under the 2013 agreement, Hannover agreed to reinsure 45.6% of waived surrender charges on free partial withdrawals, Lifetime Income Benefit Rider (“LIBR”) payments and death claim payments and also LIBR payments greater than the fund value of the underlying contract. The Company pays quarterly reinsurance premiums under the agreement on policies with LIBR. In addition, an experience refund is calculated on a quarterly basis.

As of April 1, 2019, the Company recaptured all risks ceded under the 2013 Agreement and entered into a coinsurance funds withheld reinsurance agreement ("2019 Treaty"). Under the 2019 Treaty, Hannover assumes an 80% quota share of future claims associated with the LIBR and waived surrender charges on existing plan codes. In addition, Hannover will accept risks on newly issued policies through at least December 31, 2021. The aforementioned risks being ceded under the 2019 Treaty are consistent with the risks ceded under the 2013 Agreement.

The 2019 Treaty essentially amends and replaces the 2013 Agreement. As the 2019 Treaty covers business issued prior to the effective date of the agreement, and the recapture of the 2013 agreement and the 2019 agreement were entered into simultaneously, the initial net impact of the recapture gain and the 2019 Treaty of \$95.5 million was recognized directly in surplus during the second quarter of 2019. These reinsurance transactions are summarized as follows:

Income Statement	December 31, 2020	December 31, 2019
Annuity Considerations	\$ 200,192,725	\$ 105,769,408
Benefits and Surrenders Ceded	66,940,295	67,930,334

Reserve Credit	\$ 1,398,948,292	\$ 1,160,930,446

Effective July 1, 2009, the Company entered into two funds withheld coinsurance agreements with Athene Life Re Ltd. (“Athene”), an unauthorized Bermuda life reinsurer. One agreement ceded 20% of certain index annuities issued from January 1, 2009, through December 31, 2009. The other agreement ceded 80% of the Company’s multi-year rate guaranteed annuities issued on or after July 1, 2009 through December 31, 2013. The Company remains liable to policyholders with respect to the policy liabilities ceded to Athene should Athene fail to meet the obligations it has coinsured. The balance due under these agreements with Athene represents the amortized cost of call options held by the Company to fund index credits related to the ceded business and cash due to Athene related to monthly settlements of policy activity. These transactions are summarized as follows:

Income Statement	December 31, 2020	December 31, 2019
Annuity Considerations	\$ 1,772,972	\$ 1,842,352
Commission and Expense Allowance	3,615,349	3,775,005

Funds Withheld Under Treaty	859,828,919	979,027,800

Effective January 1, 2014, the Company entered into an annuity modified coinsurance agreement with Athene. The amended agreement cedes 80% of the Company’s multi-year rate guaranteed annuities ("MYGA") issued on or after January 1, 2014 (both direct MYGA business and MYGA business assumed from Eagle Life) and 80% of certain of the Company's index annuities issued from August 1, 2016 through December 31, 2016. In addition, the agreement cedes 100% of certain fixed index annuities the Company assumes from Eagle Life. The Company remains liable to policyholders with respect to the policy liabilities ceded to Athene should Athene fail to meet the obligations it has

Effective January 1, 2014, no new business is being ceded to Eagle Life under this coinsurance agreement.

Effective January 1, 2014, the Company entered into a coinsurance agreement with Eagle Life under which the Company assumes 80% of certain of Eagle Life’s fixed index annuities issued on or after January 1, 2014 through December 31, 2016, 50% of certain of Eagle Life’s fixed index annuities issued on or after January 1, 2017 through December 31, 2018 and 20% of certain of Eagle Life’s fixed index annuities beginning January 1, 2019. In addition, the Company has a coinsurance agreement with Eagle Life in which the Company is assuming 100% of Eagle Life’s MYGA business. These coinsurance agreements are summarized as follows:

Income Statement	December 31, 2020		December 31, 2019

NOTES TO FINANCIAL STATEMENTS

31 - RESERVES FOR LIFE CONTRACTS AND ANNUITY CONTRACTS:

1. The Company waives deduction of fractional premiums upon the death of the insured and returns any portion of the final premium beyond the date of death. Surrender values are not promised in excess of legally computed reserves.
2. As part of the underwriting process, an individual may be determined to be substandard. In such cases, additional premiums are charged depending on such determination.

The reserves for life, accident and health and annuity policies, developed by actuarial methods, are established and maintained on the basis of published mortality and morbidity tables using assumed interest rates and valuation methods that will provide, in the aggregate, reserves that are not less than the minimum valuation required by law or guaranteed policy cash values.

Unpaid claims include amounts for losses and related adjustment expenses and are determined using individual claim evaluations and statistical analysis. Unpaid claims represent estimates of the ultimate net costs of all losses, reported and unreported, which remain unpaid at the end of the current reporting period. These estimates are necessarily subject to the impact of future changes in claim severity, frequency and other factors. In spite of the variability inherent in such situations, management believes that the unpaid claim amounts are adequate. The estimates are continuously reviewed and as adjustments to these amounts become necessary, such adjustments are reflected in current operations.

The Company adopted IAC 191-97 and under this prescribed practice indexed annuity reserves are calculated based on Standard Valuation Law and Guideline 35 assuming the market value of the call options associated with the current index term is zero regardless of the observable market value for such options. At the conclusion of the index term, credited interest is reflected in the reserve as realized, based on actual index performance.

3. As of December 31, 2020, the Company had no insurance in force for which the gross premiums are less than the net premiums according to the standard valuation set by the State of Iowa.
4. The Tabular Interest, Tabular Less Actual Reserves Released and Tabular Cost have been determined by formula as described in the instructions.
5. For the determination of Tabular Interest on funds not involving life contingencies for each valuation rate of interest, the tabular interest is calculated as one hundredth of the product of such valuation rate of interest times the mean of the amount of funds subject to such valuation rate of interest held at the beginning and end of the year of valuation.
6. None.
