## NOTES TO FINANCIAL STATEMENTS

### NOTE 1 Summary of Significant Accounting Policies and Going Concern

#### A. Accounting Practices

The financial statements of American Equity Investment Life Insurance Company of New York ("the Company") are presented on the basis of accounting practices prescribed or permitted by the New York State Insurance Department (the "Insurance Department").

The Insurance Department recognizes only statutory accounting practices prescribed or permitted by the State of New York for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under New York Insurance Law. The National Association of Insurance Commissioners' ("NAIC") Accounting Practices and Procedures Manual ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by the Insurance Department. There are no differences between accounting practices prescribed or permitted by the Insurance Department and NAIC SAP that materially impact the Company.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the Insurance Department is shown below:

#### B. Use of Estimates in the Preparation of the Financial Statements

No significant changes have occurred in disclosure from December 31, 2020.

#### C. Accounting Policy

1. No significant changes have occurred in disclosure from December 31, 2020.

2. Investments in bonds rated NAIC 1-5 (including loan-backed securities), are reported at cost adjusted for amortization of premiums or discounts. Bonds with NAIC 6 ratings are reported at the lower of amortized cost or fair value. Amortization is computed using methods which result in a level yield over the life of the security. The Company reviews its prepayment assumptions on mortgage and other asset-backed securities at regular intervals and adjusts amortization rates retrospectively when such assumptions are changed due to experience and/or expected future patterns. Other admitted assets are valued principally at cost as required or permitted by New York insurance laws.

Realized capital gains and losses are recorded on the trade date and determined on the basis of specific identification and are recorded net of related federal income taxes and amounts transferred to the Interest Maintenance Reserve ("IMR"). Under a formula prescribed by the NAIC, the Company defers, in the IMR, the portion of realized gains and losses on sales of fixed income investments, principally bonds, attributable to changes in the general level of interest rates and amortizes those deferrals over the remaining period to maturity of the security. The Asset Valuation Reserve ("AVR") is established by the Company to provide for anticipated losses in the event of default by issuers of certain invested assets. The AVR is determined using a formula that is intended to establish a reserve to offset potential credit-related investment losses.

The carrying values of all investments are reviewed on an ongoing basis for credit deterioration. An other-than-temporary impairment shall be considered to have occurred if it is probable that the reporting entity will be unable to collect all amounts due according to the contractual terms of a debt security in effect at the date of acquisition. If this review indicates a decline in fair value that is other than temporary, the carrying amount of the investment, other than loan-backed and structured securities, is reduced to its fair value and a specific other than temporary impairment is taken. A decline in fair value which is other than temporary includes situations where the Company has made a decision to sell a security prior to its maturity at an amount below its carrying value. Such reductions in carrying values are recognized as realized losses on investments.

3. Common stocks are stated at fair value based on the latest quoted market prices.

4. No significant changes have occurred in disclosure from December 31, 2020.

5. No significant changes have occurred in disclosure from December 31, 2020.

6. If the fair value of a loan-backed or structured security is less than its amortized cost at the reporting date, the Company assesses whether the impairment is other than temporary. If the Company intends to sell the loan-backed or structured security, an other than temporary impairment is considered to have occurred and a loss is recognized through earnings in an amount equal to the excess of amortized cost over fair value at the reporting date.

If the Company does not intend to sell the loan-backed or structured security, the Company assesses whether it has the intent and ability to retain the investment in the security for a period of time sufficient to recover the amortized cost. If the Company does not have the intent and ability to retain the investment for the time sufficient to recover the amortized cost, an other than temporary impairment is considered to have occurred and a loss is recognized through earnings in an amount equal to the excess of amortized cost over fair value at the reporting date.

If the Company does not expect to recover the amortized cost basis of the security, it is unable to assert that it will recover its amortized cost even if it does not intend to sell the security and the entity has the intent and ability hold such security. Therefore, in those situations, an other than temporary impairment is considered to have occurred and a loss is recognized in an amount equal to the excess of amortized cost over the present value of cash flows expected to be collected, discounted at the loan-backed or structured security's effective interest rate.

Interest income is recognized on an accrual basis. Dividend income is recognized when declared. The Company does not accrue income on bonds in default which are delinquent more than twelve months. Further, income is not accrued when collection is uncertain.
